This value 1U LCD KVM Rack Console provides a complete keyboard, video and mouse control point, integrated neatly into only 1U of rack/cabinet storage space - a simple and space-efficient solution that provides total KVM control right at the server rack. The KVM Rack Console integrates a 17in TFT-LCD monitor, full 105-key keyboard and touchpad together into a durable, compact 1U design. When the rack console is not in use, it's as simple as folding down the display (like a laptop computer) and sliding it back into the server rack on sturdy steel rails (included). For consolidated control from a convenient location, the KVM rack console can be connected to

virtually any USB KVM switch for command of multiple servers/computers, providing a scalable KVM control solution that lets you determine the type of KVM switch to use based on function and budget.
